Tea Party Patriots Action Calls for Biden Impeachment After Raid of Trump Residence

Atlanta, GA – Today, the FBI searched the Mar-a-Lago home of former President Trump. In response, **Tea Party Patriots Action Honorary Chairman Jenny Beth Martin released the following statement:**

“Joe Biden must be impeached. The raid on President Trump’s home should have never happened. It is beyond wrong. It is obviously part of the ongoing witch hunt that began before President Trump ever took office, and which continues to this day.

“President Obama’s IRS unlawfully targeted citizen groups that dared to oppose Obama policies. Now President Biden’s FBI and DOJ have continued the tradition of politicizing federal agencies and have upped the ante by attacking a former president.

“We are supposed to be a constitutional republic not a banana republic. This madness must be stopped.

“Anyone and everyone who cares about the future of our constitutional republic must get out to vote in record numbers in the fall elections. We must elect a Congress that will use its constitutional oversight and power of the purse to rein in an out-of-control executive and return power to the people.”
